
There are approximately 8,450 micro watersheds in Kerala. The micro watersheds have been prepared on GIS platform by the Department of Soil Survey and Soil Conservation for implementing soil and water conservation activities under the Haritha Keralam Scheme at the Panchayat level. This would help in planning the execution of soil and water conservation projects on micro watershed basis to preserve the existing water resources.

Hon MLA of Ollur Shri. K. Rajan, Agricultural Production Commissioner Dr. Raju Narayana Swamy, Director of Soil Survey and Soil Conservation Department Shri. J. Justin Mohan, Vice Chancellor of Kerala Agricultural University Shri. P. Rajendran, Additional Directors Shri. B. Ajith Kumar, Smt. C. K. Jayakumari, Deputy Director, IWDMK Shri. S. Biju, Senior Cartographer Smt. Asha and senior officials of the department participated in the event.
